

Guided Nature Hike: California's Rare Coastal Habitats

Experience the fragrant California Sage Scrub alongside a Coastal Lagoon — two of America's most endangered ecosystems in one hike! This custom tour reveals the hidden web connecting wildlife and people in Southern California's backyard.

Wind your way through an ancient slot canyon (optional)

Led by expert naturalist Cypress Hansen, you'll walk alongside one of San Diego's healthiest coastal lagoons. Birds, pollinators, and unique native plants abound at every turn.

 Perfect for: families, photographers, birders, and native plant lovers

► Distance: about 2 miles (easy and mostly flat)

► Duration: we go at your pace! Usually ~2-3 hours

► Location: San Elijo Lagoon ~25mins from DT San Diego
